MEMORANDUM FOR THE RECORD

SUBJECT: Aerospace Medical R&D Programs

25X1

1. [redacted] and I attended the Aerospace Medical R&D Programs Review, part of the "Black Saturday" series on 2 April. A copy of the agenda is attached for your information. A complete transcript of the briefings and associated charts are available in my office for those who have specific interest in the subjects listed.

2. The presentation by [redacted] his staff was well done but was heavily weighted toward a historical review of the division and its current organizational structure at the request of [redacted]. As a result, there was little time devoted to specific research programs.

25X1

3. The Aerospace Medical Division (soon to be headed by [redacted]) includes the School of Aerospace Medicine, the Wilford Hall USAF Hospital, the USAF Epidemiological Laboratory, the Aeromedical Research Laboratories at Wright-Patterson AFB, the Aeromedical Research Laboratory at Holloman AFB, and the Arctic Aeromedical Laboratory in Alaska. The Aerospace Medical Division is the largest group of direct interest to ORD and to some extent OSI. Research of a more clinical nature, however, is being undertaken under the sponsorship of the Surgeon General, USAF.
